

# SUNDEEP S

## CYBER SECURITY ENGINEER

Product Security Specialist

### ⚡ QUICK INFO

**Experience:**

7 Years

**Location:**

Bengaluru, India

**Email:**

sundeepsg96@gmail.com

**Phone:**

+91 8277791078

### 🔧 EXPERTISE

- VAPT & Pen Testing
- Threat Modeling (STRIDE)
- App & API Security
- Secure SDLC
- DevSecOps
- Cloud Security
- Container Security
- Vuln. Management
- Security Governance

### 🔧 SECURITY TOOLS

- Burp Suite Pro
- Invisi
- SonarQube
- Trivy
- Black Duck
- Microsoft Defender
- Nessus
- OWASP ZAP
- Azure DevOps
- Docker/K8s

### 📦 TECH STACK

**Languages:**

Python, JavaScript, C/Bash

**Platforms:**

Linux, Windows, Azure

**Frameworks:**

Docker, Kubernetes

### ✦ CREDENTIALS

**CEH v10**

Certified Ethical Hacker

EC-Council, USA

Mar 2020

### 🌐 LANGUAGES

## PROFESSIONAL SUMMARY

Results-driven Cybersecurity Engineer with 7 years securing enterprise products and infrastructure. Expert in Product Security, Application Security, Threat Modeling (STRIDE), and Secure SDLC implementation. Certified Ethical Hacker with proven expertise in vulnerability management, DevSecOps transformation, and security governance across industrial automation and enterprise software domains. Track record of building resilient security architectures in cloud and containerized environments.

## PROFESSIONAL EXPERIENCE

### ABB PROCESS AUTOMATION

Cyber Security Engineer | Product Security Specialist

June 2024 – Present

- Led Product Security assessments for 5+ industrial automation products using STRIDE Threat Modeling, Data Flow Diagram analysis, and Attack Tree methodology.
- Designed comprehensive Secure SDLC framework embedding security-by-design principles across Agile environments from architecture to product release.
- Executed Web Application and API Penetration Testing (OWASP Top 10) using Burp Suite Professional and Invisi with detailed findings documentation.
- Managed 500+ vulnerabilities across 5+ product lines via Azure DevOps with CVSS-based risk prioritization and coordinated team remediation.
- Integrated SAST (SonarQube), DAST (Invisi), and SCA (Black Duck, Trivy, Dependency Track) into CI/CD pipelines with automated OSS compliance.
- Enhanced Container Security posture via Docker hardening (Bench analysis) and Kubernetes security hardening assessments.
- Established Azure Security assessment program with cloud security runbooks, CI/CD security reviews, and NSG optimization.
- Conducted Secure Code Reviews and Security Architecture Reviews translating technical findings into business impact language.
- Performed OSS compliance and license risk assessments ensuring secure third-party and open-source component usage.
- Supported security governance activities including threat modeling documentation, design assessments, and audit readiness.

### ACCENTURE

Technology Security Analyst

April 2022 – June 2024

- Conducted Web Application Penetration Testing and Vulnerability Assessments for Navitaire (Aerospace/Airlines) and Nissan identifying critical security gaps.
- Performed OWASP Top 10 security assessments across enterprise client infrastructure aligned with international security standards.
- Delivered comprehensive security assessment reports with CVSS prioritization and actionable remediation roadmaps to development teams.
- Validated security fixes and tracked vulnerability remediation activities through project completion in collaborative engagements.

### HCL TECHNOLOGIES LIMITED

Software Engineer – Cybersecurity

August 2019 – April 2022

- Executed comprehensive VAPT for aerospace clients (Boeing CEN Server, Zodiac Inflight Innovation, UNO media server) across multiple infrastructure layers.
- Performed Threat Modeling and Data Flow Diagram analysis identifying and mitigating design-stage security vulnerabilities.
- Conducted Software Composition Analysis and OSS compliance reviews ensuring third-party component security and licensing compliance.
- Performed SAST analysis and security code reviews identifying vulnerabilities across multiple

◆EDUCATION

**B.E. – Electrical & Electronics Engineering [60%]**

*Channabeshawara Institute of Technology, Tumkur | VTU | May 2018*

**PUC Certificate – General [63%]**

*Vijaya Chethana PU College, Tumkur | KA Board | Aug 2014*

**SSLC Certificate [78%]**

*Shardamba High School, Tumkur | KA Board | Jun 2013*
